Comparison of adjusted information to U.S. GAAP information

This presentation includes adjusted financial measures that are derived from the Company's continuing operations. This non-GAAP information is provided in order to allow investors to make meaningful comparisons of the Company's operating performance between periods and to view the Company's business from the same perspective as Company management.

The Company's earnings release dated April 28, 2020 contains exhibits that reconcile the differences between the non-GAAP measures and comparable financial measures calculated in accordance with U.S. GAAP. Such exhibits are available on the Company's website at http://investor.spglobal.com/quarterly-earnings

Reconciliations of certain forward-looking non-GAAP financial measures to comparable GAAP measures are not available due to the challenges and impracticability with estimating some of the items. The Company is not able to provide reconciliations of such forward-looking non-GAAP financial measures because certain items required for such reconciliations are outside the Company's control and/or cannot be reasonably predicted. Because of those challenges, reconciliations of such forward-looking non-GAAP financial measures are not available without unreasonable effort.
This presentation contains “forward-looking statements,” as defined in the Private Securities Litigation Reform Act of 1995. These statements, including statements about COVID-19 and the scenarios we are using to project the impact of the pandemic on the Company, which express management’s current views concerning future events, trends, contingencies or results, appear at various places in this report and use words like “anticipate,” “assume,” “believe,” “continue,” “estimate,” “expect,” “forecast,” “future,” “intend,” “plan,” “potential,” “predict,” “project,” “strategy,” “target” and similar terms, and future or conditional tense verbs like “could,” “may,” “might,” “should,” “will” and “would.” For example, management may use forward-looking statements when addressing topics such as: the outcome of contingencies; future actions by regulators; changes in the Company’s business strategies and methods of “project,” “strategy,” “target” and similar terms, and future or conditional tense verbs like “could,” “may,” “might,” “should,” “will” and “would.” For example, management may use forward-looking statements when addressing topics such as: the outcome of contingencies; future actions by regulators; changes in the Company’s business strategies and methods of generating revenue; the development and performance of the Company’s services and products; the expected impact of acquisitions and dispositions; the Company’s effective tax rates; and the Company’s cost structure, dividend policy, cash flows or liquidity.

Forward-looking statements are subject to inherent risks and uncertainties. Factors that could cause actual results to differ materially from those expressed or implied in forward-looking statements include, among other things:

- worldwide economic, financial, political and regulatory conditions, and factors that contribute to uncertainty and volatility including natural and man-made disasters, pandemics (e.g., COVID-19), geopolitical uncertainty, and conditions that may result from legislative, regulatory, trade and policy changes associated with the current U.S. administration;
- the Company’s ability to maintain adequate physical, technical and administrative safeguards to protect the security of confidential information and data, and the potential for a system or network disruption that results in regulatory penalties and remedial costs or improper disclosure of confidential information or data;
- the outcome of litigation, government and regulatory proceedings, investigations and inquiries;
- the health of debt and equity markets, including credit quality and spreads, the level of liquidity and future debt issuances, demand for investment products that track indices and trading volumes of certain exchange traded derivatives;
- the demand and market for credit ratings in and across the sectors and geographies where the Company operates;
- concerns in the marketplace affecting the Company’s credibility or otherwise affecting market perceptions of the integrity or utility of independent credit ratings, benchmarks and indices;
- the effect of competitive products and pricing, including the level of success of new product developments and global expansion;
- the continuously evolving regulatory environment, in Europe, the United States and elsewhere, affecting S&P Global Ratings, S&P Global Platts, S&P Dow Jones Indices, and S&P Global Market Intelligence, including new and amended regulations and the Company’s compliance therewith;
- the Company’s ability to successfully recover should it experience a disaster or other business continuity problem from a hurricane, flood, earthquake, terrorist attack, pandemic, security breach, cyber attack, power loss, telecommunications failure or other natural or man-made event, including the ability to function remotely during long-term disruptions such as the COVID-19 pandemic;
- the Company’s ability to make acquisitions and dispositions and successfully integrate the businesses we acquire;
- the Company’s ability to successfully recover should it experience a disaster or other business continuity problem from a hurricane, flood, earthquake, terrorist attack, pandemic, security breach, cyber attack, power loss, telecommunications failure or other natural or man-made event, including the ability to function remotely during long-term disruptions such as the COVID-19 pandemic;
- the Company’s ability to apply, incentivize and retain key employees;
- the level of the Company’s future cash flows and capital investments;
- the impact on the Company’s revenue and net income caused by fluctuations in foreign currency exchange rates;
- the Company’s ability to adjust to changes in European and United Kingdom markets as the United Kingdom leaves the European Union, and the impact of the United Kingdom’s departure on our credit rating activities and other offerings in the European Union and United Kingdom; and
- the impact of changes in applicable tax or accounting requirements, including the Tax Cuts and Jobs Act on the Company.

The factors noted above are not exhaustive. The Company and its subsidiaries operate in a dynamic business environment in which new risks emerge frequently. Accordingly, the Company cautions readers not to place undue reliance on any forward-looking statements, which speak only as of the dates on which they are made. The Company undertakes no obligation to update or revise any forward-looking statement to reflect events or circumstances arising after the date on which it is made, except as required by applicable law. Further information about the Company’s businesses, including information about factors that could materially affect its results of operations and financial condition, is contained in the Company’s filings with the SEC, including the “Risk Factors” section in the Company’s most recently filed Annual Report on Form 10-K.
Data into insights. Essential intelligence for an ever-changing world.

We provide data & analytics, research & commentary, benchmarks, credit ratings and ESG solutions through the collective strength of our divisions.
Revenue by business for the past 15 years

S&P Global Ratings

2005: $1,600 million, $1,952 million, $2,139 million
2019: $3,106 million

S&P Global Market Intelligence*

2005: $39 million, $597 million
2019: $1,959 million

S&P Global Platts

2005: $164 million, $183 million, $214 million
2019: $844 million

S&P Dow Jones Indices**

2005: $105 million, $137 million
2019: $918 million

* Data for 2005–2015 include Capital IQ revenue on the lower bar and SNL revenue on the upper bar
** S&P Dow Jones Indices joint venture was established in June 2012
The company faces significant risks today

Despite our resilience and financial strength, we are not immune to structural risks arising from COVID-19 which could impact our revenue from issuance, AUM, renewals and new product sales. These risks include:

**Macro Economic Environment:**
- Impact to capital spending
- Decrease in trade and capital flows
- Cost cutting and decreased profitability of corporations

**Equity Markets:**
- Drop in AUM levels
- Sharp moves in cash and liquidity
- Sustained heightened volatility

**Bond and Credit Markets:**
- Sustained drop in issuance
- Large increase in defaults and credit stress
- Financial sector instability

**Oil Markets:**
- Sustained drop in oil and commodity prices
- Weakness in client base including defaults

$100 million, 3-year cost reduction program now expected to achieve $120 million

Target annual run-rate savings 2018 to 2020

Productivity improvements across **support functions** and **real estate**

Productivity improvements in **technology & digital infrastructure**

Run-rate savings achieved at 2019 year-end

$63m across support functions and real estate

$22m in technology and digital infrastructure

S&P Global
## Our capital management philosophy

### Continued Dividend Growth

- Continue our 47-year track record of steady annual dividend growth

### Financial Health

- Committed to investment-grade credit rating
- Target adjusted gross leverage\(^2\) to adjusted EBITDA ratio of 1.75x to 2.25x

### FCF\(^1\) Return to Shareholders

- Return capital to shareholders via share repurchases and dividends
- Execute share repurchases in a disciplined manner

---

1) Free Cash Flow represents operating cash flow less capex and distributions to non-controlling interests and certain excluded items.

2) 1Q 2020 adjusted gross leverage included debt, unfunded portion of pension liabilities (~$244 Million), SPDIJ put option (~$2.27 Billion), and the expected NPV of the liability for lease payments (~$707 Million)
Consistent track record of returning cash to shareholders

RETURNED

$9.5 Billion

Note: Shares repurchased are reported on a settlement-date basis
2020 areas of focus

- Bring additional transparency and independent analytics to Chinese capital markets with Ratings and Market Intelligence
- Expand Platts and Ratings capabilities in Asia

- Continue MI platform development & client migration
- Enable Ratings content distribution
- Nurture recent product launches and develop new products
- Implement Platts commodity service model

- Fully leverage all assets across the Company into ESG offerings
- Develop Data Marketplace and SME data and analytics in MI
- Launch climate analytics on the MI Platform and as a data feed
2020 areas of focus

Technology

• Complete cloud-first strategy
• Implement numerous Kensho projects including the launch of OmniSearch on the MI desktop
• Utilize technology to improve our customers’ experience

Operational Excellence

• Expand data ingestion, linking and processing success
• Continue to leverage in-house RPA and third-party technologies
• Continue to improve cyber security transformation

People

• Build on Essential TECH and Data Science Academy
• Maintain commitment to diversity and inclusion
• Promote leadership development
A growing ecosystem: recent investments in fintech and unique data sets

To scale exposure to emerging technologies, S&P Global is a limited partner in two fintech-focused-funds: Green Visor (San Francisco) and Arbor (Hong Kong and Israel)
Kensho capabilities embedded throughout the Company with a robust pipeline of projects

- **Omnisearch** – Access data on Market Intelligence platform via search and topical machine-learning
- **Entity linking** – Reduces cost and time to acquire, maintain and bring new data sets to market
- **Codex** – Ingest documents and provide relevant data and information to user
- **Data Extraction** – Improve operations by ingesting unstructured documents and extracting relevant data
- **Platts MOC** - Streamline commodity prices publication while providing best-in-class analytical tools
- **SCRIBE** - Transforms transcript creation
- **New Economies Indices** - Innovative methodology to generate unique indices
In 2019, S&P Global officially launched its domestic credit-rating business in China

• First approval for a company wholly owned by an international CRA to rate domestic Chinese bonds

• Authorized to rate issuers and issuances from:
  – Financial institutions
  – Corporates
  – Structured finance bonds
  – Renminbi denominated bonds

• China is the 3rd largest bond market in the world

• In 2019, corporate issuance was approximately $1 trillion

• We entered the market with a greenfield operation

• We issued our first rating in June 2019

ESG performance highlights

We see ESG as an essential component of sustainable company performance

Environmental

Commitment to sustainable supply chain through strong Vendor Code of Conduct

Shared our expertise with change-making sustainability organizations such as the Financial Stability Board’s Task Force on Climate Related Financial Disclosures

20% of facilities ISO 14001 EMS certified with plans to continue certification in key offices

Decreased paper use by 57% since 2013, surpassing our 2018 goal of 15%

Neutralized emissions from employee travel earning the official CarbonNeutral® Travel certification

Social

Ensuring a diverse & inclusive culture is set from the top through recruitment strategies and partnerships

Invested more than $8.5 million in the development of our employees

Launched EssentialTech initiative to train employees for the future of work. Nearly 14,000 have taken the 1st course -Automation, Machine Learning & AI

Clear alignment between the business priorities, talent agenda, and workforce planning for critical roles and emerging talent

Governance

All directors (other than the CEO) are independent and the Chairman and CEO roles are separated

100% response rate on our annual Code of Business Ethics employee & manager training

Pay for Performance philosophy

Strong oversight over strategy and risk

Focus on Board refreshment; current members have an average tenure of 6.5 years

Strategic priority for board diversity, 4/12 Directors are women and 2 are African American
